

DECKMASTER®

HIDDEN DECK FASTENING SYSTEM

The strongest longest lasting decks are built using Deckmaster brackets. Its unique undermount design uses fasteners at two angles, virtually eliminating deck racking and shearing. And because Deckmaster is completely hidden beneath the deck boards, there are no exposed screws or nails on the deck surface. As such, moisture won't pool around and enter deck boards and joists—the primary cause of deck rot and fastener pop-ups. Deckmaster is the best hidden fastening system available.

- ▶ **50 year warranty for powdercoated brackets**
- ▶ **ACQ compliant**
- ▶ **Outstanding corrosion resistance**
- ▶ **LOX® 2 recess for a sure driving experience**

Deckmaster packaging shown in 10 bracket box. Also available in 100 bracket box.

For 5/4 deck boards

For 1 1/2" and thicker deck boards

For 3/4" hardwood decking & hollow-core composites

Recommended Deckmaster Brackets per Square Foot

SQUARE FEET	16" ON CENTER	24" ON CENTER
25	10 Brackets	10 Brackets
50	20 Brackets	20 Brackets
75	30 Brackets	30 Brackets
100	40 Brackets	30 Brackets
200	80 Brackets	60 Brackets
300	120 Brackets	90 Brackets
400	160 Brackets	120 Brackets
500	200 Brackets	150 Brackets

Choose Deckmaster when you want your deck to stand the test of time

Deckmaster decks are built to last

Grabber's Deckmaster Fastening System is designed to hide all fasteners beneath the deckboards making the deck stronger and more durable.

With Deckmaster no moisture can enter deckboards or joists, the primary cause of deck rot and nail and screw pop-ups.

Stains and splinters around fastener holes are eliminated because there are no exposed screws or nails.

Deck Clip™

Hidden deck fasteners

Reduce your installation time by half with Grabber's new Deck Clip™. A hidden deck fastening system that doesn't require predrilling or adhesives and holds deckboards in place much better than plastic clips.

Grabber's Deck Clip™ is extruded out of 6063T5 marine grade aluminum. Its unique shape allows it to grab both sides of the decking and actually hold it down like a miniature spring keeping the deck boards tight. The unique design works with all types of hardwood decking, whether pregrooved or in biscuit jointer slots.

(Patent Pending)

Clips are made from double coated marine grade aluminum. Screws and a free bit tip are included in each bucket.

Works with:

- ▶ Hardwoods
- ▶ Softwoods
- ▶ Most solid composites
- ▶ Synthetic decking

Each bucket includes:

- ▶ 175 clips
- ▶ 185 screws
- ▶ Bit tip
- ▶ Plugs
- ▶ Instructions

Each bucket installs 100 sq feet of 5.5" decking on 16" centers or 150 sq feet on 24" centers.

Why Choose Deck Clip™?

Installing hardwood decking presents plenty of challenges without having to fight predrilling for screws, messy construction adhesives, screws pulled thru the clip, or stripped out screw heads. Grabber's Deck Clip™ solves all these problems and at the same time adds strength and ease of installation compared to other clip systems. The rounded edges ease installation and the lobes on the bottom grip the board and allow for natural movement along the length of deckboards. Grabber's Deck Clip installs quickly and holds deckboards securely.
