

# PANELMax®

## For consistent professional results use the PanelMax primer & glue system.

The PanelMax primer & glue system is custom formulated and tested to give you, the professional contractor, the strongest and longest lasting bond available.

### PanelMax Primer

- ▶ Custom formulated to provide the best prepared gluing surface
- ▶ Engineered formula seals gypsum and prevents shadowing and edge failures that may occur with other off-the-shelf primers.
- ▶ Dries fast saving fabrication time
- ▶ Quick clean up with tap water
- ▶ Low VOC and LEED compatible and supported with PanelMax submittal documentation
- ▶ Designed to work right the first time and to eliminate call backs caused by poor quality surface sealers

### PanelMax Hot Glue

- ▶ Engineered to set-up immediately with PanelMax primer when compressed increasing corner assembly speed
- ▶ Specifically formulated to work fast with PanelMax primer to create a strong bond and to prevent edge failures
- ▶ Tested and proven to provide a reliable, strong assembly when combined with the PanelMax primer

### Grabber PowerStick Adhesive

- ▶ Grabber professional grade PowerStick adhesive is super strong and flexible even after it sets up making assemblies easy to install.

Avoid potential problems and costly call-backs by using the PanelMax system approved products

# PANELMax™

**Build strong assemblies and corners that will last**

Contractors who think of drywall, and cement board in a two-dimensional sense will find out that these materials are anything but flat. Grabber Construction Products, best known for premium fastening systems for wood, metal, and drywall applications, has recently introduced PanelMax, board milling machine technology revolutionizing the way drywall can be used.

**Use the PanelMax panel fabrication technology to create profiles and details that were previously difficult and time-consuming to create.**

**Use the specially formulated PanelMax system of primers and adhesives to securely bond corners and assemblies**

**Don't take chances with untested and inferior materials**

**Rout assembly with the PanelMax panel fabrication machine**

**Prime and seal exposed gypsum using PanelMax primer**

**Apply PanelMax hot glue or PowerStick adhesive**

**Fold assembly together**
