

Deck Fasteners for Hard Woods

STAINLESS STEEL
IronWorker™
The deck screw designed for hard wood

Grabber's 305 stainless steel IronWorker hardwood deck screw is designed specifically for use with hard woods. IronWorkers patented double cut threads eliminate the need for *pre-drilling in most hardwood applications. IronWorker is also available with brown painted heads to match most hardwoods.

Custom colors are also available. Ask your Grabber dealer for details.

#2 Phillips Drive
Type 17 Point
